

# Coleman Will Celebrate National Holiday, May 24, Victoria Day

## Michel Strike Vote Carried—Reports Vary

141 In Favor, 131 Against, 11 Spoiled is Report on Tuesday's Balloting

Another Report States 224 in Favor, 131 Against, 12 Spoiled

For several weeks Murphy has tried to bring Michel miners out on strike, in order to try and force the Crow's Nest Pass Coal Co. to recognize the outlawed Mine Workers Union of Canada, which is affiliated with the Workers Unity League, a Communist controlled organization which having "banned" municipal and school boards in Blairmore for two years, and which was repudiated in Coleman in a spectacular "clean up" in the miners hall on May 17, 1932, now endeavors to save its face by organizing a strike among the British Columbia miners. The mine workers of Michel and Fernie recently renewed their working agreement with the company, W U L leadership has caused disunity at Blairmore, where two unions operate and ill feeling exists which reacts throughout the community.

It is probable a similar condition will develop at Michel, as the vote on Tuesday clearly shows that nearly 50 per cent of the miners were against striking.

Apparently it is another demonstration of blundering leadership of paid organizers who fatten while their followers remain idle and their families are reduced to want.

Irresponsible leadership by agitators who own nothing in the communities in which they create trouble usually results in serious loss to deluded followers. The strike as a means of settling disputes seems to be of very questionable value, particularly so under incapable and irresponsible leaders.

## Gruesome Relic Found at Frank Slide

Johnny Houghton and a companion employed at the relief camp at Frank made a gruesome find while walking around the small lake at the Frank slide. It was the bleached bones of a human forearm, among the rocks, and has given rise to many conjectures. Possibly it may be part of the skeleton of a victim of the titanic slide of 31 years ago, or of some other tragedy, one rumor being that a woman was murdered by an Oriental many years ago. The forearm bones were intact, except for the thumb missing.

They reported it to the R.C.M.P. after placing some stones to cover the bones, but on re-visiting the spot two days later they were unable to locate the cache they had made. Therefore another mystery of the historic Frank slide remains unsolved.

Coleman baseball club will travel to Cowley to tomorrow where they will play in a tournament. Teams from Blairmore, Bellevue and Glenwood will play. Coleman won this competition two years ago and expect to repeat this year.

putes seems to be of very questionable value, particularly so under incapable and irresponsible leaders. Among the conflicting reports is one in the Lethbridge Herald that Murphy was voted out of the miners meeting when he tried to speak.

Another report is to the effect that the mine manager, Mr. Bonner, has resigned, ill health being cited as the reason. Two fatalities in recent weeks have caused unrest and has partly contributed to the present disturbed conditions.

## VICTORIA DAY MAY 24th

On this day in garrison towns throughout the British Empire guns will thunder forth in royal salute in honor of the foremost of its long line of monarchs, "VICTORIA THE GOOD," who for over 63 years was the constitutional head of Great Britain, the Indian Empire and the British Dominions Beyond the Seas.

"Kings and Thrones may perish  
Kingdoms rise and wane—"  
yet for centuries since the Norman conquest has Great Britain gained in power by its wise colonizing methods and the Britisher's traditional love of fair play. Long may we honor Empire Day and Queen Victoria in whose memory it is observed.

## Corbin Tied in League Standing With Coal Ck.

Michel in Second Place—Kimberley, Fernie and Coleman Tied for Third Place  
Bellevue Fourth Place; Blairmore and Hillcrest in Cellar

Coleman added another two points to their league total on Saturday when they defeated the Bellevue club on the latter's ground by a 1-0 score.

Coleman played a nice game throughout. Ford in goal handled everything that came his way with confidence and was never in trouble. The backs were a little unsteady during the first half but settled down in the second and played a sound defensive game. J. Anderson and Gardiner excelled on the half back line, the latter playing one of his best games. Kapalka was injured, slowing him up considerably.

Coleman won the toss and elected to take advantage of the wind. They started several dangerous rushes but the wind carried the ball over the bar several times. W. Anderson had a nice try when he headed the ball, hitting the cross bar and rebounding over. A few minutes later Joyce rattled the cross bar, the ball going out. Bellevue broke away and Ford was called upon to save a dangerous shot which was ticked for the corner of the goal, Ford throwing himself full length to deflect it into a corner kick which proved fruitless to Bellevue. Play was fairly even when the whistle blew for half time with out any score.

The second half opened with Bellevue (Continued on Page 4)

## Barbers May Establish Code

A meeting of barbers of Coleman, Blairmore, Bellevue and Hillcrest was held here on Sunday. When it was decided to petition the government, in conjunction with other barbers of the province, to establish a fair price code, to make prices uniform. A rate of 50c for haircuts and 25c for shaves, as now existing in Pass towns, will be asked for. Barbers claim that conditions do not warrant a reduction, as a fair union wage is all that is possible under present conditions and prices.

### IN MEMORIAM

In Loving Memory of William Wilson, killed at the International mine on May 28th, 1929.

He went away without farewell,

He said goodbye to none,

Heaven's gates opened wide,

A loving voice said "come."

—Ever remembered by his wife and daughter.

### IN MEMORIAM

In Loving Memory of William Wilson, killed May 28th, 1929.

The years may wipe out many things,

But this they'll wipe out never,

The memory of those Happy Days

Which we have spent together.

Inserted by Mr. and Mrs. Ephraim Hill and Mr. and Mrs. Ernest Hill.

### IN MEMORIAM

In loving memory of Tony Nicholas, who was killed at Lundbreck Falls on May 26, 1929.

No one knows how much we miss you,

No one knows the bitter pain;

We have suffered since you left us,

Life has never been the same.

In our hearts your memory lingers,

Memories tender, kind and true;

There's not a day, dear Tony,

That we do not think of you.

—Inserted by his loving parents and brothers and sisters.

To sell household articles which you may desire to dispose of, use the Classified Column of The Journal at 2c a word with a minimum charge of 35c. Best returns for little outlay.

## Baseball League Opener Sees Bellevue Win 6 2

Baseball opened with a good winning on Monday evening when Angelo John McGraw's Coleman Red Sox were defeated by Bellevue's fast fielding nine to the score of 6 2. Getting away early in the game with a two run lead, Coleman soon evened the score, and until the seventh it was almost an airtight game, when through a few errors and Bellevue's haters connecting well with Cecil Milley's pitching, after he had relieved Paul Yagos in the box, they scored four runs and clinched the game.

Wayne Mills relieved the first pitcher Bellevue put up, his slow ball fooling several of Coleman's batters.

Jimmy Joyce was all set on third base for a home run for Coleman, when Bellevue's third baseman was too quick for him and put him out as he stepped from the base. Billy Fraser scored the greatest number of hits for Coleman. Idris Haysom was put in as a pinch hitter, and lived up to the game by stealing a few bases.

The veteran Bill Gate relieved Sonny Richards as catcher, and also made a couple of good hits. For the first of the season it was a good game, and better play is expected of Angelo's players as the season advances.

Line up:  
Bellevue: Fossil, pitcher; Morris, catcher; Gatto, Kubaek, Marcollin, Tappay, Lund, Duke, Costa.  
Coleman: Yagos, pitcher; Rich, ardy, catcher; Ryplein, Atkinson, Joyce, Andros, Gate, Fraser, Emerson.

Referee: Dastobal.

School sports will be held on May 28 if the weather is fine. If it rains they will be postponed until June 1.

## Music Festivals And Spring

The music festival season, whether by accident or design, coincides with spring in this Western country; and it is peculiarly fitting that it should. The two seasons are highly compatible.

Spring is essentially the season of song—the joy of new birth, of life freed from the trammels of winter, of new hope and refreshment, of the seed-time and the filling and bursting of the buds, of the urge to new endeavor, of faith and a more expansive contentment. The pagans of old celebrated its advent with rites in which music was the vehicle of expression of that mirth and jollity the softer sun inspired.

The association of spring with song is universal—has been universal down the ages; for in the spring, nature awakes from long hibernical sleep to the notes of its own orchestra and the song of its own chorists. What more fitting than that the soul of man should "blossom in singing" when spring brings life anew to prairie and woodland!

The music festival idea has given point and purpose to man's urge to vocalize the finer aspects of his emotional existence and experience. The remarkable growth of that idea in prairie communities, indicated in the consistent expansion of the festival, is one of the most reassuring evidences of the enduring quality of the social organization these communities reflect. The joy of singing and the love of music, emotions never realized nor appreciated to the full unless they are shared, are infallible knitters of closer ties of friendship and fellowship. The association thus cemented inures to a deeper sense of that brotherhood of man which makes the whole world kin.

Song is of the heart and of the spirit—a weaver of the very fabric of community life. Music symbolizes the harmony of which that life is compact and without which it cannot long survive. It is significant that visitors to rural communities of the prairie west have been struck with the fineness of the social life obtaining there, despite the lack of those adjuncts which are considered indispensable to the amenities of city life. This feature has been remarked upon particularly in relation to the remotest communities where residents have learned to rely upon their own resources and their own proclivities for social organization, and where, in co-operative endeavor, they have managed to add spice and variety to their ordinary routine.

Music and song have thus become the greatest adjuncts of peace and contentment among the scattered communities of the far-flung prairies. They have contributed greatly towards the alleviation of the pangs of disappointment. They have made hardship less onerous, reaction less disruptive. These annual festivals, bringing, as they do, urban and rural dwellers of kindred tastes together, and demonstrating, as they do, a heritage common to the diverse peoples composing the population of the western provinces, are contributing much towards developing that fellowship which, wider than the communal, reaches through the provincial into the national life.

It is right that the winter should be a season of preparation and practice; but it is essential that the festivals should be of the spring. That's where they belong.

## Stowaway Makes Good

### Boy On Antarctic Ship Has Become Popular With Crew

Fourteen-year-old Einar Lamberg, who stowed away on the whaling factory ship Southern Princess, has made good. Einar was discovered when the ship was on her way to the Antarctic. He had crept into the ship the night she left Sandefjord, Norway, and hidden under a barrel until hunger forced him to reveal himself. The skipper admired the lad's pluck, and made him assistant steward. His quickness and keenness soon made the boy extremely popular with all the crew. In dark hours after a hurricane had smashed the cruiser of the Southern Princess and it seemed certain that she would be lost with all hands, Einar proved his worth. His bright cheerful manner and utter disregard for danger helped the morale of the older men.

## First Bills Of Lading

### Were Short Compared To Wordy Documents Of To-day

Bills of lading in the "good old days" of the sailing vessel were short and snappy as compared with the long details now printed in fine type on the back of such instruments.

A facsimile of a bill of lading issued in 1854 on "the good ship Meteor" from Boston to San Francisco released the ship and everybody connected with it from liability of all kinds in the brief liability clause which read in part, "the goods to be delivered in good order, the danger of seas and fire excepted." In other words, if it got there fine, and if not, it was too bad.

The camel is a native of the North American continent.

## Shortness of Breath Weak, Sinking Feelings

If going up stairs, climbing hills, walking too far; if the least exertion causes you to stop to get your breath, or if you have weak, sinking feelings, it is time for you to stop and think as to the cause of your trouble.

What you should do is take a course of Milburn's H. N. Pilla. They tone up and strengthen the vital organs so as to prevent any harmful attacks of disease.

Ask your druggist for Milburn's H. N. Pilla.

## Sky Changes Coloring At Different Altitudes

### Moscow Experts Studying Records Taken In Stratosphere Flight

Remarkable evidence of changes of color in the sky at different altitudes in the stratosphere is one of the results which have been obtained by the experts in Moscow who are studying the records left by the crew of the Soviet stratosphere balloon Stratoatlet which crashed after reaching the record height of over 13 miles. Investigations are being carried on under the direction of M. Thompson, the senior scientific worker of the Central Weather Bureau. The gondola of the Stratoatlet carried numerous instruments for making automatic observations at various periods of the ascent and descent.

Among the data on which the experts have been working are twelve photographs taken at different altitudes, and twenty-seven spectrum observations.

The results of the preliminary investigations are stated to show that the sky gradually changes color as follows: 5.28 miles, marine blue; 6.83 miles, dark blue; 8.08 miles, dark violet; 11.81 miles, dark violet marine; 13.05 miles, dark violet grey; 13.67 miles, black grey.

This evidence bears out observations made by Professor Piccard, the Belgian balloonist, and also by the crew of the Soviet Stratoatlet U.S.S.R., which made a previous high record attempt, who recorded that the sky at 11.81 miles high was "very dark violet."

The experts state that valuable records of sky colors were made by M. Vassenko up to the time when disaster overtook the balloon at a height, apparently, of 7.46 miles on the downward descent.

## Wolves Kill Caribou

### Trapper Brings Tale Of Wanton Destruction From North

Bringing stories of terrific onslaughts made by roving packs of wolves while the caribou were migrating, Edwin Sunquist, trapper of the sub-Arctic, reached The Pas, Manitoba, following nine months of travel west of Churchill.

Sunquist with his partners, John Ivanchuk and Charles Hendren, left last July with supplies for winter trapping 165 miles north of Brochet. They travelled by canoe, and reached their headquarters on Oct. 11. During the trip they saw no caribou. But on the morning after their arrival, they went outside to find a migrating herd passing their door. Thousands of animals were moving south. Following close on their heels were packs of from five to 35 wolves. Sunquist said the wolves in many cases killed purely for wantonness, and when there were not deer to knock down, they turned on each other.

## Organ Built By Blacksmith

### Donated His Work And Instrument Only Cost \$300

After four years' work Thomas J. Hoskins, blacksmith, motor engineer and organist, is completing a pipe organ in Fortne, Vancouver. The instrument, 12 feet high, nine feet wide, and seven feet deep, was made at the forge, and in the garage, the home and the church. Hoskins was organist at the Carter's Corner Methodist Church. The old organ wheezed out, and the congregation was too poor to buy a new one. Hoskins bought an old instrument, and from it took pipes and keyboard. Then he made 600 new pipes, from three inches to nine feet long. He bought 20 sheepskins for the bellows, and used 25 pounds of glue, more than 2,000 screws, 15 pounds of nails and much wood. The new instrument will cost \$300. Hoskins has donated all his efforts.

## May Have Dual Vision

### Scientist Thinks Coo Adjusts Eyes For Day And Night

Raccoons that have reached the laboratories of the University of Colorado psychology department without meeting the usual fate of their kind on college campuses have convinced Dr. Lawrence W. Cole, head of the department, that they have a dual vision, one for daylight and the other for twilight.

Dr. Cole announced that, after two years of intensive experimenting with the furry little animals, he had found that they could tell red from grey, but could not distinguish between two shades of grey.

The tall-growing hybrid delphiniums so popular in Canadian gardens can be raised from seed easily, but, as they do not come true, anyone wishing to increase the stock of a special plant must do so by division of the roots of that plant.

## Agricultural Notes

### Many Items Of Interest To The Western Farmer

There are 680 genera of seed plants occurring within the Dominion of Canada.

The only broad-leaved evergreen tree in Canada is the Madrona. It is a small tree with thick leathery leaves and is found in the coast region of British Columbia.

The sales of branded beef in Canada for the first three months of 1934 totalled 8,609,435 lbs., an increase of 1,146,235 lbs. on the corresponding period of last year.

The disagreeable odour of the Canadian skunk cabbage is believed to be for the purpose of attracting carrion flies and thus securing pollination.

For the first three months of 1934, hogs graded in Canada showed an increase of 17,792 head over the corresponding three months of last year, namely, 835,358 in 1934; 817,566 in 1933.

Plantings of potatoes in Canada in 1933 increased 10 per cent, namely, 527,700 acres as compared with 521,500 acres in 1932, while the average yield was 78 cwt. per acre as against 76 cwt. per acre in the previous year.

The Canadian potato crop for 1933, according to the Markets Extension Division of the Dominion Department of Agriculture, is estimated by the Bureau of Statistics at 41,296,000 cwt., an increase of 5 per cent. over the 1932 production of 39,416,000 cwt.

The problems confronting the cheese industry in Quebec are quite similar to those in Ontario. In both provinces, declining volume of output has had a tendency to raise production costs—per unit of product manufacture.—The Economic Analyst.

The minimum temperature reached in winter in Canada is of great importance in determining the distribution of plants, more particularly in the case of shrubs and trees. Herbaceous plants are often protected from the effects of severe cold by a covering of snow.—Division of Botany, Dominion Department of Agriculture.

In the shipments of livestock from Western to Eastern Canada during the first three months of 1934, cattle, calves, and sheep showed an increase, and hogs a decrease, compared with the corresponding period of last year. Figures for the latter being within brackets: cattle, 21,188 (7,642); calves, 149 (191); sheep, 31,245 (26,140); and hogs 66,397 (93,366).

The inclusion of rough unsuitable types in the majority of the cattle shipments to the United Kingdom in 1933, especially during the season when grass-fed cattle were loaded, was disappointing, writes the Canadian animal products trade commission in Great Britain, and it is injurious to the reputation of Canadian cattle as a whole. Only the right kind of cattle should be loaded for export.

The European apple sucker was first discovered in Canada at Wolfville, N.S., in 1919, and since that time it has spread generally throughout Western Nova Scotia, as well as to the eastern section of New Brunswick and Prince Edward Island. To prevent further extension of this pest, a quarantine has been maintained on the known infested counties. The means that fruit growers in New Brunswick located outside of the counties of Westmoreland, Albert, King's, and St. John, may not procure any of the host plants from these counties, or from the provinces of Nova Scotia and Prince Edward Island.

## Have Never Seen Rain

Because of drought there are children ten years of age in South Africa who have never seen rain. They have been discovered by the Minister of Lands who reports that rain has been seen for seven years in some districts.

In their natural state the ruby and the sapphire are identical in composition, their difference in color being due solely to naturally included metallic oxides.

## SOURED ON THE WORLD?—THAT'S LIVER

### Wake up your Liver Bile

Many people who feel sour, sluggish and generally unwell make the mistake of taking laxatives. Laxatives, while they may or may not relieve the bowels, they only move the bile and liver juices into the large intestine. What you need is to wake up your liver. Give your liver a good dose of the daily dose of liquid bile into your bowels. Get the Bile Beans. They will do the job for you. Bile Beans will wake up your liver. Purely vegetable. Bile Beans. Quick. Ask for Bile Beans at any drug store. Bile Beans. 25c. at all drug stores.

# More Tobacco for the Money! and POKER HANDS, too with TURRET FINE CUT!

Wise smokers who "roll their own" cigarettes are making 10c do a bigger job than ever before. They're using Turret Fine Cut—the mild, cool, fragrant tobacco that gives them more and better smokes for the same money and POKER HANDS to exchange for free gifts.

A turn to Turret Fine Cut is a turn in the right direction... greater economy, greater pleasure and the extra value of POKER HANDS. Don't wait!

Save POKER HANDS to get Better Cigarette Papers FREE—Everybody agrees that "Chanticleer" and "Vogue" are the best papers—you can get 5 large books of either brand—free for only one complete set of POKER HANDS, from your nearest POKER HAND Premium Store or by mail from P.O. Box 1380, Montreal.

## It pays to "Roll Your Own" with TURRET FINE CUT CIGARETTE TOBACCO

Imperial Tobacco Company of Canada, Limited

## Figures Show Improvement

### Average Value Of Canadian Farm Stock Has Increased

The average value of farm land in Canada in 1933, including both improved and unimproved land, as well as dwelling houses, barns, stables and other farm buildings, is placed at \$24 per acre in an estimate recently issued by the Canadian government. This shows no change since 1932. Average farm land values range from \$63 per acre in Manitoba, Saskatchewan and Alberta.

Average values placed on Canadian livestock are: Horses, \$52; sheep, \$31; other cattle, \$17; milk cows, \$4; swine, \$8.89. The changes from 1932 values are slight except in the case of swine, which have almost doubled, having increased from \$4.73 to \$8.89. In the same period the average value of wool increased from five to ten cents a pound. Total value of all farm livestock in 1933 amounted to \$403,135,000, an increase of about \$27,500,000 over 1932. The value of farm poultry is placed at \$33,456,000, a slight falling-off from the value in the previous year.

Average wages of farm hands during the summer season were \$17 per month for men and \$10 per month for women, based on lodgings, in both cases, being furnished by the employer. Counting in the value of board the average wages for men were \$32 per month and for women \$22 per month.

Of recent years, a number of promising smooth-skinned barleys have been produced by different plant-breeding institutions, including the Dominion Experimental Farms, but these varieties have not yet been tested for a sufficient length of time to say which is the most desirable. For the present, however, the variety called Viget is favoured in Eastern Canada, while Regal appears most promising in the West.

Iceland's capital is named Reykjavik, meaning smoking harbor, after the hot springs, which are so prevalent in the country.

The Dahlia should not be planted until all danger from frost is over.

## "Made In China"

### Orientalists Make Up Irish Linen Handkerchiefs For American Trade

Handkerchiefs for sale in Atlantic City bearing the tickler "Pure Irish Linen," and "Made in China," so aroused a visitor that he promptly wrote to the Belfast Times about it. In reply John Gilliland of Belfast, Director of the Irish Linen Guild declared that China is now buying thousands of pieces of linen to be made up into handkerchiefs and embroidered for the American trade. "Although Irish linen is used," he said, "owing to U.S. Customs laws, articles coming into that country can only be accepted if they are marked with the place of origin—made up into handkerchiefs and embroidered for the American trade. As a matter of fact Ulster manufacturers are keeping a good grip on the handkerchief trade in America."

## Served Three Kings

### Royal Servant Is Retiring After Forty-Two Years

Royal servant during the reigns of three British kings, William Dowsett, King's Page, has just retired after 42 years at Buckingham Palace, King George's London residence. "Bill" Dowsett joined the royal service in 1892 as a footman. He gained promotion in successive stages and three years ago was appointed "Page-of-the-Back-Stairs," an honored position in the service which brings the occupant of it into immediate contact with the sovereign.

In a speech in London recently the Prince of Wales urged every young man to become air-minded.

25 feet of white or coloured paper for kitchen use—covering shelves, lining drawers, etc.

Appleford PAPER PRODUCTS  
HAMILTON, ONTARIO

# Ten Million Dollar Blaze Devastates Chicago Stock Yards

Chicago.—Twelve square blocks of packing town property valued at \$10,000,000 lay in ruins today as a result of Chicago's most disastrous fire since the city-destroying holocaust of 1871.

Speedy reconstruction had begun while investigators sought to determine if the blaze, which had its origin in the Union stockyards, was accidental or incendiary.

The conflagration, breaking in the late afternoon, May 19, devastated more than a square mile of territory and was brought under control only after every available fireman and all the apparatus in the city had battled 4½ hours. The fire destroyed more than a dozen major buildings, scores of private homes and several one or two-story flat buildings.

Approximately 1,500 persons were treated for injuries, but no deaths were reported, although searchers in the razed and fire-scorched yards feared several bodies might be found in the wreckage. Most of the 400 suffering from severe burns that necessitated hospital treatment were firemen.

Thomas J. Sheehan, city fire attorney, was in charge of the investigation to determine if the fire might have had its origin as the result of labor agitation.

The conflagration started, according to latest belief, in a cattle pen at Morgan street and Exchange avenue, inside the city's stockyards and barns in the yards were razed rapidly, and before firemen could control the blaze it had leaped across Halsted street, outside the yards—an avalanche of flame borne on a stiff wind.

Until midnight the skies flared red and even Sunday there were sporadic minor fires bursting out occasionally from smoldering ruins. Sixty-two engine companies still poured water into ruins.

Large police details patrolled the desolated area to prevent looting. The Red Cross set up relief stations to augment hospitals, and Governor Horner said relief funds would be available for the 1,200 or more homeless.

Dr. Herman N. Bundesen, president of the Chicago board of health, directed assistants in a campaign to prevent disease from breaking out in the stricken area.

Men were busy clearing away wreckage and hammers sounded in the yards as emergency pens were built hurriedly to care for cattle shipments already en route to the greatest livestock market of the United States.

## Will Build Submarines

Washington.—The \$40,000,000 item for the United States navy President Roosevelt included in his latest budgetary request for congress will be turned to the construction of submarines and destroyers.

## Crack Distance Flyers

Paris.—France's crack distance flyers, Paul Codos and Maurice Rossi, are considering a race for Paris to Los Angeles or San Francisco flight, in an attempt to smash their own non-stop record.

# Evidence Is Needed To Reach Decision On Garnet Wheat Grading

Ottawa.—Further evidence will be taken by the agricultural committee of commons before it reaches a decision as to the separate grading of Garnet wheat.

On the advice of Hon. Robert Weir, minister of agriculture, and endorsed by Hon. W. R. Motherwell, former minister, the committee took the view that absolute evidence of the necessity of such a change should be provided the thousands of farmers growing Garnet wheat. Hence new grades should be insisted upon.

A sub-committee composed of A. M. Carmichael (Prog., Kindersley), W. H. Loucks (Cons., Rosetown), E. E. Perley (Cons., Qu'Appelle), John Vallance (Lib., South Battleford), Hon. Robert Weir, Hon. W. R. Motherwell, P. G. Davis (Cons., Athabasca), was appointed to decide on the evidence to be submitted. At the opening of the meeting Hon. H. H. Stevens, minister of trade and commerce, who is sponsoring the

## Saskatchewan Claims

Natural Resources Case Presented To Distant Commission

Ottawa.—Saskatchewan's claims against the Dominion, growing from federal administration of the province's natural resources from 1905 to 1930, were presented formally before the Distant royal commission.

The commission has been sitting since February 5, with long adjournments necessitated by hearings in Regina as well as Ottawa. A vast amount of documentary evidence was submitted by both sides previous to the opening of oral arguments.

P. H. Gordon, Regina, chief counsel for Saskatchewan, placed the province's total claim at \$161,628,751. This was made up of a claim for 31,000,000 acres of land the province charges the Dominion with having alienated, with a tentative value of \$4 per acre, a total of \$124,207,460 with interest; loss of taxes, \$2,538,535; loss of grazing rentals, \$1,197,905; loss of timber revenue, \$26,698,276; school lands and school land endowment fund, \$7,127,571.

J. MacGregor Stewart, Halifax, chief counsel for the Dominion, advanced tentative counter claims of \$170,000,000.

The Saskatchewan Act was passed in 1905 only after a great deal of opposition had been smothered out.

When Saskatchewan entered confederation, September 1, 1905, the province was not permitted to exercise any rights with respect to administration and control of its resources, he said. The province was thus placed in a position of inferiority with the other provinces.

## Advances In Aviation

First Inland Aerial Mail Service In British Isles

London.—Two notable advances in British aviation were announced with the maiden flight of the Scylla, largest air liner in the world, and inauguration of the first inland aerial mail service in the British Isles, to commence shortly.

The Scylla made her maiden flight in Paris. Built for Imperial Airways, she carries 38 passengers, two pilots, a wireless operator and steward. She is powered with four 500 horsepower engines. The passengers are able to dine and hear radio programs.

The airmail service, to open in a few days, will run between Inverness and Kirkwall in the Orkney Islands.

## See Blazing Meteor

Calgary.—Blazing across the western sky, another meteor was seen by residents of Hillcrest, in the Crow's Nest Pass, last week, according to word received here. Travelling at a tremendous speed, it was similar in appearance to the one witnessed at Hillcrest and in many other Alberta districts, in mid-March. The vivid blue-green ball shot from the northwest behind Turtle mountain, eye-witnesses reported.

## Ontario Elections

Premier Henry Announces Voting Day June 19th

Toronto.—The Ontario general elections will be held June 19. Official nominations will be held June 12 and advanced polls on June 16 and 18.

Premier George S. Henry announced the dates and also distribution of Ontario's legislature. Premier Henry made his brief announcement from the open window of his automobile as he left Government House. He had been conferring for 20 minutes with Lieutenant-Governor Herbert A. Bruce.

The lieutenant-governor signed the order-in-council providing for dissolution of the legislature and issuance of the writs. Premier Henry did not issue his election manifesto.

For three days Premier Henry and his cabinet have held conferences discussing the election date and preparing the Conservative manifesto. At the conclusion of the conference, the election date was forthcoming.

For weeks party heads have been campaigning in preparation for the vote. Premier Henry and his cabinet ministers have delivered addresses at numerous campaign meetings, and Mitchell F. Hepburn, Ontario Liberal leader, has waged a busy campaign.

## Plan Return Flight

Aviators Anxious To Attempt Another Atlantic Crossing

Lahinch, Irish Free State.—After missing death by a narrow margin on their eastward flight across the Atlantic, Capt. George Pond and Lieut. Cesare Sabelli were impatient to be in the air again and tonight late by trying to fly back to New York.

Their new plans call for a visit to Rome, after which they will return to Ireland and attempt to fly back to New York, thus substituting a round-trip flight for the honor they missed when they failed to reach Rome in a single hop.

Rome.—Italy was going ahead with plans to give Captain George Pond and Lieut. Cesare Sabelli a reception that will take no account of their forced landing in Ireland.

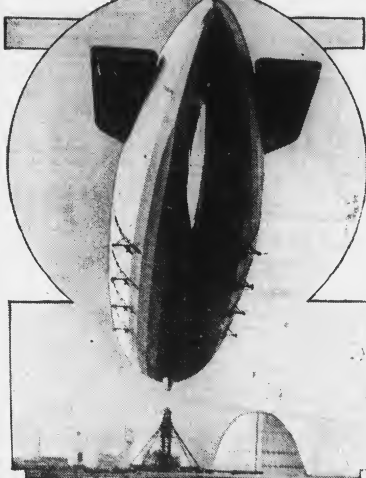

## Marketing Act

Hon. Robt. Weir May Be Minister In Charge Of Measure

Ottawa.—"It is human probability," Hon. Robert Weir, minister of agriculture, said today, "that the minister to administer the Marketing Act. This is the information given by Hon. Hugh Guthrie in the House of Commons when pressed by Hon. W. R. Motherwell, former minister of agriculture, who pointed out that the bill itself did not designate the minister.

"For greater convenience," said Mr. Guthrie, "and some elasticity the bill has been drafted in its present form as it is realized that agriculture is not the only natural product involved. I do not think I am going out of my way if I say that we may assume the minister of agriculture will be the man."

## U.S. SOUNDS DIRIGIBLE'S DEATH KNELL

The pride of the United States Navy Air Force, the giant airship Macon, pronounced a failure after being unable to defend herself in fleet manoeuvres off Cuba. In addition to her theoretical destruction by aeroplanes, the Macon sustained new actual damage which necessitates repairs. Florida This is the second occasion in recent weeks that the giant airship has had to put in for repairs, and many believe unless she shows better in her new tests with the fleet, no more airships will be built by the United States. Here we see the Macon swinging in the breeze as she lies anchored to her mooring mast.

## MAY HEAD BOARD

Hon. Gordon Harrington, former premier of Nova Scotia, and now leader of the Opposition in that province, who is mentioned as a possibility for the post of chairman of the Board of Railway Commissioners. The vacancy was created when Hon. C. P. Fullerton became chairman of the Board of Trustees of the Canadian National Railway.

## Central Bank

Principle Of Private Ownership Is Upheld After Vote

Ottawa.—The principle of private ownership triumphed in the banking committee of the House of Commons when an amendment which would have made Canada's new central bank into a publicly-owned institution, met with defeat, by four votes. The bill establishing the bank provides that its 50,000 shares shall be privately held.

Conservative members of the committee present massed their full strength to defeat the amendment of Hon. Ian MacKenzie, Liberal member for Vancouver Centre, by 17 to 13. Liberal members and those of the U.F.A. group united in support. On the defeat of Mr. MacKenzie's motion, G. C. Coote (U.F.A., Macleod), who had a similar motion on file, withdrew.

## Saskatchewan Elections

Voters To Go To The Polls On June 19

Regina.—Saskatchewan voters will go to the polls Tuesday, June 19. The date of the provincial election was officially announced by Premier J. T. M. Anderson. It will be the same date as the provincial vote in Ontario.

Election writs will be issued this week, Premier Anderson said, with Tuesday, June 12, official nomination day. Advance polls will be held Friday, Saturday and Monday, June 15, 16 and 18, respectively.

## Heads Pasteur Institute

Paris.—Dr. Louis Martin, one of the world's foremost authorities on contagious diseases, was named head of the Pasteur Institute. For 40 years Dr. Martin has been associated with the institute.

# U. S. Would Tighten Regulations Governing Exportation Of Arms

## Marketing Bill

MacKenzie King Approves Proposed Changes In Act

Ottawa.—An significant statement by Rt. Hon. MacKenzie King that the amendments proposed to the marketing bill by Hon. Robert Weir had met some of his objections to the measure was made in the house.

The Liberal leader went further and suggested that if the government changed the legislation in respect to the powers of the boards to enact regulations and made such power a government responsibility, "as far as I am concerned I would cease to have any opposition to the measure as a measure of an experimental character."

Mr. King stressed that one of the basic things in the British constitution was the control of parliament over expenditures. This principle was ignored in the measure, he said. Expenditures under the bill should be made by appropriations in parliament. Strong exception also had been taken by the opposition, he said, to part two, which left it to a particular group appointed to investigate and determine what was to be an offence.

"I am glad to notice the government had taken account of the force of the exception taken to these clauses," said Mr. King, "and is proposing to make a material change which will meet all that there was in the nature of opposition to that part of the measure. The government is proposing to do away with the word 'determine' and substitute the word 'report'."

"That means that when an investigation is held a report will be made by the investigators to the minister and to the government. The report will be public, and undoubtedly will be serviceable in helping to make more effective the law with regard to preventing the enhancement of prices or the restraint of trade which is unreasonable and unfair."

## Nothing To Worry About

Montreal Does Not Need To Fear Competition From Churchill

Montreal.—The proposed insurance rate reduction of 10 shillings per cent. on the insured values of shipping using the Hudson Bay route this season will not likely affect Montreal, grain men here stated.

While the reduction would permit the lowering of freight costs, it was pointed out Montreal or Vancouver would not have much to worry about. On a straight commercial basis neither port need fear competition from Churchill, one stated.

Washington.—A general tightening of the regulations governing the exportation of arms, with special attention to be given to ending the jungle warfare between Bolivia and Paraguay, was asked by President Roosevelt.

The president sent to congress a message calling for senate ratification of international agreements that would call for licensing arrangements for international arms shipments. He said it would help to end the "mad race in armament which if permitted to continue may well result in war."

A little after the message went to congress, the state department sent the chairman of the senate and house foreign relations committees a measure to allow the president to issue executive orders forbidding the sale in the United States of arms to Bolivia or Paraguay for use in their war over the Chaco region.

The measure was introduced almost immediately in the senate by Key Pittman, Nevada Democrat. Introduction in the house was prevented by an amendment that already had been taken over.

## Withdraws From Commons

Mitchell Hepburn To Devote Time To Ontario Provincial Affairs

Toronto.—Mitchell F. Hepburn, Ontario Liberal leader, announced he would submit his resignation as member of the Dominion parliament to Rt. Hon. W. L. Mackenzie King, Liberal leader.

Mr. King will hand Mr. Hepburn's resignation to the speaker of the house on June 11, the day before the official nominations in Ontario.

"This should set at rest all doubt as to whether I am withdrawing from the Dominion parliament and devoting my whole time henceforward to the leadership of the Ontario Liberal party in the provincial election campaign," Mr. Hepburn declared.

## Amending Elections Act

New Federal Regulations May Bar Doukhobors From Voting

Ottawa.—Amendments to the Federal Elections Act are reported to contain that fact that Doukhobors are to be disenfranchised, regardless of whether they are Canadian. Unofficially the reason for their disenfranchisement is that they are pacifists and opposed on principle to assuming duties and obligations of citizenship.

Another feature is that revision officers of new state voters' lists are to be sole and final judges of language qualification.

# Reduction In Hull Insurance Rates On H. B. Route Is Announced

Ottawa.—"During the open season of navigation for a well-found vessel, the risk of casualty is little, if any, greater on the Hudson Bay route than on the voyage to Montreal."

This is not the statement of a western board of trade, or of the On-to-the-Bay Association. It is the considered opinion of the Imperial Shipping committee, of London, and features the fifth report of the committee on Hudson Bay insurance rates in which a reduction in hull insurance rates for the 1934 season is announced.

The reduction is 10 shillings per cent., which means 10 shillings per 100 pounds sterling of insured value. Instead of paying 50 shillings per cent. as they did in 1932 and 1933, which works out at approximately 3½ per cent., shipowners this year will pay 40 shillings per cent., or approximately 3 per cent.

If ships are equipped with gyro compasses they will only pay 30 shillings per cent., or about 2½ per cent.

These premiums will be the minimum charged for the suspension of the British North American warranty clause in all marine hull insurance contracts. The ordinary marine policies permit a vessel to sail the seven seas, with the exception of certain routes which are covered by special warranties. If a vessel desires to enter these routes

an additional premium must be paid for the suspension of the warranty.

The fifth report of the Imperial shipping committee while it announces this reduction in hull insurance rates and forecasts a further reduction if no casualties occur during the present season, does not hold out hope of extending the navigation season. And while admitting that, last year, hull insurance on the bay was six times higher than on the St. Lawrence, the report goes on to say that underwriters do not base premium charges on known facts so much as upon recorded results and the volume of traffic. This refers, undoubtedly, to the loss of the Bright Fan and to the inevitable disparity between the number of ships which use the St. Lawrence and the number which sail into Hudson Bay.

Chief importance of the report, therefore, would seem to be that little is to be expected by way of a longer navigation season on the bay and that in future the tremendously higher insurance rates imposed on the bay route are to be justified by lack of traffic volume and not by navigation conditions. While the report does not actually say so, the language used clearly implies that the committee regards the bay route as safe for shipping than the St. Lawrence.

## Corbin Tied in League

(Continued from Page 1)

vue passing and taking every advantage of the wind. Pressure was brought to bear on the Coleman defence, who were now playing a cool heady game after showing a little unsteadiness during the first half. Coleman relieved pressure with some long passing plays and play was brought into Bellevue's eighteen yard line where Lesson of Bellevue handled the ball, the referee ruling a penalty. J. Anderson took the spot kick, the ball going into the Bellevue net like a bullet to put Coleman one up. Kapalka was injured at this point and was sent to outside left, Brown going to left half.

This set-back stung Bellevue into fresh efforts and play for long spells was in Coleman territory, Coleman relieving the pressure by kicking the ball out of the field. Coleman half back line fell back to help their defence and their combined efforts proved too formidable for Bellevue forwards to penetrate. Final result Coleman 1, Bellevue 0.

Line up  
Bellevue: Stewart, Evans, Lesson, Litherland, Dawson, Morris, Cummins, Marcollin, Parker, Cole, Loughlin  
Coleman: Ford, Griffiths, Burrell, Gardiner, J. Anderson, Kapalka, Balloch, Fraser, Joyce, W. Anderson, Brown.

## There can be only ONE first! combining Bigness . . Performance . . Economy . . Style—and in the Low Price Field . . it's the TERRAPLANE 6

There are always two sides to an opinion. There can only be one side to a fact. If you are considering the purchase of a car — weigh these facts about the new Terraplane 6

### First in BIGNESS

By footrule, yard stick or tape measure, there can be only ONE car that's BIGGEST. In the low price field today, that's the Terraplane — 15 ft. 10 in., bumper to bumper!

### First in PERFORMANCE

The Terraplane proves its performance with facts. The new Terraplane will outperform even the Terraplane 6 that broke 79 official CAA and AAA records last year.

### First in POWER

With 85 horsepower, the Terraplane 6 is the most powerful 6 in the low price field.

Your nearest Terraplane-Hudson dealer will be glad to have you take the wheel in your own hands

### First in STYLE

A car either has a tire carrier or baggage trunk in the rear—or the rear lines are clean. With clean, flowing rear body lines and a front end free of all air pockets, the Terraplane 6 is first in full advanced streamlined style.

### First in ECONOMY

Economy is money—either in your pocket or out of your pocket. Terraplane economy is not a matter of trick test or special adjustment. It has been proved in actual owner service—by owners' sworn statements.

Scores of new features . . . 14 models . . . 112 and 116 inch wheelbases . . . 80 and 85 horsepower engines.

Prices subject to change without notice

OCCASIONAL WIFE

By EDNA ROBB WEBSTER  
Author of "Joretta," "Lipstick Girl," etc.

## SYNOPSIS

Camilla, Hoyt and Peter Anson, young and in love, marry secretly, deciding to live their own lives apart until Peter is able to provide for her. Peter is a young, struggling sculptor trying to win a competition for a scholarship abroad and Camilla is the adopted daughter of a wealthy family. She is not to inherit money when she comes of age and so is studying commercial art in the hope of landing an agency job. Others in the story are Avie Werth, another wealthy girl who is trying to win Peter, Sylvia Todd, Peter's model, and Gus Matson, his former roommate with whom he has quarrelled. After a party at an exclusive club, where the rest of the members of the party go to a cabaret to continue the gossip, Peter and Camilla slip off to the beach by themselves and fall in love on the sand. When they awake it is early morning and Avie and another boy are standing near them. This makes it necessary for Camilla to announce before the party that she and Peter are married. Camilla urges Peter to accept some of her earnings to help him along, but Peter refuses and they quarrel. After Camilla has gone from the studio, Avie Werth calls and persuades Peter to accept a loan of \$1,000. Peter and Camilla are reconciled. Avie invites them to a party, at which she introduces Peter to well-known artists and public men.

(Now Go On With The Story)

## CHAPTER XLV.

"A title is always very important," Avie observed, and turned to Camilla. "Don't you think so? It has so much to do with the success of a book or play or picture. And it does with a piece of sculpture, also. It should strike the public's imagination, as well as being appropriate to the subject."

"Of course," Camilla agreed. She reflected that she probably knew more about that than Avie did. Wasn't that her obligation in her work—to attract the public eye with a few well-chosen words? "Have you anything in mind?"

"Several," Peter nodded, "but I've been so busy getting the unnamed thing finished that I haven't given it much thought. No use to have a name, however alluring, without an object to go with it."

"I had an idea the minute I saw it," Avie explained. "Just the one word, 'Inspiration' seems to me to fit it exactly. What do you think of it?"

Camilla repeated the word thoughtfully. "It sounds rather well," she hesitated.

Avie recoiled instantly. Her displeasure over Camilla's semi-enthusiasm was almost visible. She turned to Peter confidently. "Don't you like it better, the more you hear it? Doesn't it sort of grow on you?"

"I believe it does," she admitted, then turned to Camilla. "Have you a suggestion, dear? The committee is open to any new idea, and anxious for one."

"I've thought a lot about it," she confessed, smiling. "I have a list of ideas written down at home, but the best one I have thought of is 'Eager Youth.'"

Silence for a moment, dominated by Tillie's clashing of china and silver in the kitchenette. "Say, that's hot, all right!" Peter exclaimed. "Well, you sly little cricket—had a whole page of titles topped by a prize win-

ner and you haven't said a word!" He was immensely pleased.

"I was waiting for you to tell me your own ideas first, so you wouldn't be influenced by mine," Camilla explained quietly. "I wanted the whole thing to be yours, title and all, unless you got stuck and I could help you out."

"Oooh!" he enthused. "Am I in luck to have two women working their clever brains to name my stuff. It ought to be good!" He turned to Avie. "What do you think of that one, 'Eager Youth'?"

"Very good," she agreed instantly, but she thought to herself, "I'll handle you, alone."

"Anyway," Peter decided, "we have another week to think it over. It won't take long to scratch the title on when it's finished. Both of you keep up the good work and we'll vote on the final selection."

Camilla remained with Peter for what was left of the night, but it was only four hours later that she resolutely left him to his work and returned to her own apartment for a busy day of routine tasks, preparing her clothes for the following week and an afternoon nap that refreshed her for the evening, when Peter came to take her to a movie.

It was entertainment which permitted them to relax as that of the previous evening had not done; and although they were in a crowded theatre, they might have been entirely alone for the relief that they witnessed the final dissolution of all strife and misunderstanding.

"They always live happy ever after," Peter laughed.

"They should, after all that effort to deserve happiness. Not all stories end happily, but I like them a lot better when they do, don't you?"

"I guess everyone does. Still, you remember the tragedies longer, I guess that is why a few authors dare to leave them that way. True to life, too. There are plenty of real tragedies in real life that never end in happiness."

"Yes and the saddest ones are those we never know about. Sudden death, murder, failure, are not the real tragedies. The worst ones are lived behind smiles and service, in silence. But we are going to have a happy ending," she added cheerfully and confidently.

"You know it," he affirmed quickly. "At least, we are going to give the controllers of destiny a fair struggle, I think."

"Just imagine, Peter, you may be in Paris in less than two months," she reminded him wistfully.

"I doubt it. If I'm not, I'll be earning some real money, though."

Always, the human mind is forced to measure achievement in financial terms, because the world ruthlessly demands that "what you do" be measured by what you gain. Each man measures his neighbor's success by that standard, by which the world judges him in return. It is no more far from the scale of civic justice, but it is irreconcilable. Accidents are cast into the discard for the glittering display of possession.

Camilla experienced her first measure of tangible achievement when she arrived at the office on Monday morning and Margaret Blaine greeted her with:

"Have you seen the new issue of Weekly Review? Your Tiny Tots scamper all over the centre double-spread." She held out the magazine.

A strange exultation rose up in Camilla's breast and she seemed to soar in the air like a flying bird. Her cheeks glowed with the thrill of the little figures. She could not speak.

"Well, aren't you thrilled to death to see them for the first time in actual print?" demanded Margaret. She was secretary to Mr. Weeks and held a profound respect for creative talent.

"Of course, I am," Camilla confessed. "But what shall I do about it?"

"Say, if that was my stuff, I'd make whoopee like an Indian—well, I don't know what I would do!"

"That's just about the way I feel. That is why I don't do anything at all. They do look dandy, don't they?" she added fondly, quite as if anyone else had created them and she was admiring them.

"Do they? If that ad doesn't make the kids notice and demand Wheat-hearts, nothing will!"

"I hope you are right," Camilla said quietly. Again, that standard of success confronted her. Her work would be praised or condemned according to the measure of its return measure in gold to her employer. Margaret's opinion did not make it good, nor the opinion of any critic.

## If Past 45 and "Low" and Upset Look for Acid Stomach

HERE ARE THE SIGNS:  
Nervousness  
Frequent Headaches  
Indigestion  
Loss of Appetite  
Bitter Stomach  
Nausea  
Auto-Intoxication

WHAT TO DO FOR IT:  
TAKE—3 teaspoonsful of Phillips' Milk of Magnesia in a glass of water every morning when you get up. Take another 30 minutes after eating. And another 30 minutes after going to bed.  
OR—Take the new Phillips' Milk of Magnesia Tablets—one tablet for each teaspoonful of water.

If you have Acid Stomach, don't worry about it. Follow the simple directions given above. This small dosage of Phillips' Milk of Magnesia acts at once to neutralize the acids that cause headache, stomach pains and other distress. Try it. You'll feel like a new person.

Be careful you get genuine Phillips' Milk of Magnesia. Phillips' Milk of Magnesia Tablets when you buy—25c and 50c sizes.

ALSO IN TABLET FORM  
Each tiny tablet is the equivalent of Phillips' Milk of Magnesia.

MADE IN CANADA  
Phillips' Milk of Magnesia

But if that sickle composite mind that is known as public opinion, should force her work upon her, passing approval, her work would then turn to gold for her employers and, in turn, gold for her—and her work would be good!

Camilla telephoned to Peter during her lunch hour. "Have you seen the new Weekly Review?" her voice sang with exuberance.

"No, I haven't."

"Well, rush out and get a copy and feast your eyes on that middle spread, done by your very own wife."

"Will I! Congratulations, darling. I'm terribly proud of you. When do we celebrate?"

"When you finish the figure. Then it will be a double celebration for the famous Ansons."

"How famous?" he laughed.

"Just among ourselves, for awhile."

"Okay, honey. I won't lose a minute getting the magazine, you can bet. I'll call you back later, and let you what I think of this new Anson artist."

Camilla accomplished little work that day. Every employee and executive had to congratulate and copy Tots upon the initiation of the Tiny Tots into the world of affairs at large and advertising in particular. Each was optimistic regarding their popularity, and Camilla walked again on winged feet with her head in the clouds of hope.

Her elation was not obvious. If possible, she was more quiet and reserved than usual. For deep emotion is not expressed in sounds and actions. It is lived within the heart and soul. Only superficial emotion manifests itself in violent demonstration.

## 'Planes To Visit Toronto

British Air Force Sending Four To Centenary In July

A fleet of four planes of the British Air Force will take part in the Toronto centenary celebrations in July. It was announced in the House of Commons by Sir Philip Sassoon, Under-Secretary for Air. The machines will be the Hawker Fury, the standard interceptor fighter of the Royal Air Force. They have a top speed of 15,000 feet of 214 miles per hour, and are extremely fast climbers. They are all-metal biplanes with a Rolls-Royce Kestral engine.

It has been found that aluminum becomes stronger in the bitter colds of high altitudes.

Love is blind, marriage is a skillful oculist says the Brandon Sun.

Spain has excellent scenery for exterior cinema films.

## MATURITY—MATERNITY

## MIDDLE AGE

At these three critical periods a woman needs a medicine she can depend on. That's why so many take Lydia E. Pinkham's Vegetable Compound. 98 out of 100 say, "It helps me!" Let it help you, too.

## Squaring The Circle

Lawyer Claims He Has Solved Most Baffling Problem

The most baffling mathematical problem in history, which beat even Pythagoras—how to square the circle—is said to have been solved at last. Milan Popovitch, a middle-aged lawyer, from Niah, claims that he has done it. He started struggling with it as a schoolboy. He continued his efforts when a prisoner of war. He has been at it ever since—in the spare time he could wrest from his professional duties. Reports that an American mathematician, who left a considerable fortune to anyone who could solve the problem, spurred Mr. Popovitch on in his efforts to work out this outstanding proposition. Now, at last, he declares that he has found the solution, but before he will disclose his formula, he makes a demand that a commission, appointed by the executors of the American's will, shall examine him and be convinced that the circle has really been squared.

## Tenants Steal Building

Remove It Piece By Piece To Split Landlord

Charged with stealing a building, several tenants of a row of flats have been arrested in Khodel, Poland. Back of this is a case of revenge against the renters' landlord. Following a long series of clashes between the occupants and the owner, the tenants got together and decided to steal the building. Stone by stone, door by door, window by window, they removed their flats several miles away and reconstructed them. The little owner had them arrested, but he was found in the village and a search was started. After many days the flats were found. Inside were the tenants, enjoying life without the shadows of a landlord's calls. To out some of the clashes between the occupants and the owner, the tenants got together and decided to steal the building. Stone by stone, door by door, window by window, they removed their flats several miles away and reconstructed them. The little owner had them arrested, but he was found in the village and a search was started. After many days the flats were found. Stone by stone, door by door, window by window, they removed their flats several miles away and reconstructed them. The little owner had them arrested, but he was found in the village and a search was started. After many days the flats were found. Inside were the tenants, enjoying life without the shadows of a landlord's calls. To out some of the clashes between the occupants and the owner, the tenants got together and decided to steal the building. ## Personal and Local

W. C. Co-Eds beat Natal girls at Natal, Sunday by a 10-8 score.

A. M. Denmore, of Lundbreck, was a business visitor yesterday.

Delivery boys leave copies at 5c per week. Leave word at office or notify boys.

Tommy Benson of Rocky Mountain House is visiting with Mr. and Mrs. J. Stevenson.

A shower for Miss Myrtle Nelson was held at the home of Margaret Milley, on Saturday night.

A number of Girl Guides went for a hike last Saturday, with Miss Yuill, the captain.

H. Houghton, of Calgary, is visiting at the home of his parents, Mr. and Mrs. J. Houghton.

Miss Margaret Allan returned at the week end from Alberta University.

Mr. and Mrs. E. C. Kightlinger of Corbin visited friends over the week end in Coleman.

Robert Hulbert is a patient in the local hospital receiving treatment on his leg.

J. Moore, manager of the Heintz man branch in Calgary, is a business visitor this week.

Mrs. Wm Jackson and children returned home last week after spending the past six months visiting her old home in England.

Mickey Hennessy occasionally comes in from his country residence at Crows Nest Lake, and is keeping in good health.

E. L. Fuller, high schools inspector, of Edmonton, is registered today at the Greenhill hotel.

Rev. Roy Taylor is attending the United church conference in Edmonton as representative of Lethbridge Presbytery.

Coleman Miners Association will hold a regular meeting in the Community hall on Sunday afternoon next at 2:30 p.m., for regular business.

T. Clifford Rees, representing the Printing Machinery and Ink Co. and A.W. Dowse, of the Dowse Sash & Door Co., of Winnipeg, were business visitors in Coleman on Saturday.

A.F. Short, secretary of McGillivray Creek Coal Co., was a delegate to the annual convention of the Western Canada Fuel convention at Estevan last week. W. S. Purvis represented the International Co.

Mrs. A. McLeod and Mr. and Mrs. J. Naylor left on Monday for Calgary where they will witness the graduation exercises at the Holy Cross hospital at which Miss Marjorie McLeod and Miss Betty Naylor will receive their graduation diplomas.

E. F. Gare, former publisher of The Journal, was a visitor here on Monday. Mrs. Gare and two children accompanied him. For the past year they have operated a poultry and fruit ranch at Cloverdale, B.C., but Mr. Gare's health necessitated a change being made, and he is seeking a new location. During the short time they were here on Monday they were the guests of Mr. and Mrs. T. Flynn, and wished to be remembered to old friends in town.

## Holiday Attractions, May 24

Program for Victoria Day.

Tennis matches on local courts.

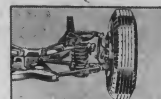

Corbin vs. Coleman, Crow League Football Match at 3:30 p.m.

Local league Softball games throughout the day.

Grand Dance in Community Hall, commencing 9 p.m.

# A New Kind of Motoring

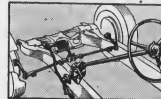

Thanks to these McLaughlin-Buick Triumphs

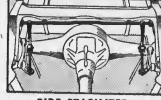

**KNEE-ACTION WHEELS**  
"Knee-action" permits each front wheel to follow the irregularities in the road without transmitting shock to the opposite wheel or to the frame and body of the car. No pitching, bouncing, jarring.

**AIR-CUSHION TIRES**  
Air Cushion Tires of entirely new design "swallow up" vibrations resulting from riding over stones, shallow holes and pavement strips. They carry only 24 lbs. pressure for traction, safety and comfort.

**CENTER-POINT STEERING**  
Center-control steering, in connection with the new front end design, provides increased efficiency and ease in turning and parking the car. Wheel shimmy and wandering are eliminated.

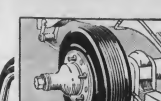

**RIDE STABILIZER**  
The new Sway Stabilizer—a spring steel bar—is mounted across the rear end of the frame to prevent the car body from swaying or rolling from side to side. Corners are rounded on even keel.

ALL over Canada, you'll find owners acclaiming the new McLaughlin-Buick. Just as much for the fashion in which time-proved fundamentals have been refined as for its new "Knee-Action" floating ride... Vacuum-Power Brakes... Automatic Starting... and improved No-Draft Ventilation. If your neighbor is one of those happy motorists who owns a 1934 McLaughlin-Buick... ask him about the new kind of motoring that McLaughlin-Buick has achieved. Or better still, come to our showrooms—drive the car itself—and make your own exhaustive test of this challenging new Straight Eight.

**AUTOMATIC STARTING**  
To start the car, you simply turn the key and step on the accelerator pedal. Automatic choke, throttle control, idle control, spark control and water temperature control take care of the rest.

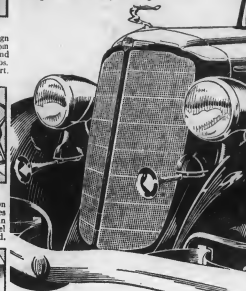

**VACUUM-POWER BRAKES**  
Increased braking area is a great efficiency and long life feature of the new brakes. Adjustments for wear are required less frequently than formerly. And the braking action is more positive.

**NO-DRAFT VENTILATION**  
Improved No-Draft Ventilation prevents entry of rain or snow—keeps fresh air circulating without drafts; prevents windshield and window clouding. A built-in system, will not rattle; closes tightly.

**NEW BODIES BY FISHER**  
Interior styling and appointments set a new standard of comfort and convenience. Wider seats and backs for increased riding ease. Concealed window curtains are a feature. Many modern conveniences.

**McLAUGHLIN BUICK**

A General Motors Value Buick Produced in Canada
